

PEARL SHIN

web developer

✉ pearlshin22@gmail.com 📞 (516) 316-8410 🌐 pearlshin 🐦 pearlsshin 🌐 pearlshin1 📍 New York, NY

A junior web developer integrating a liberal arts background into the realm of technology. Passionate about turning ideas into a reality while enjoying the process of finding unique solutions to complex problems. Desires to offer new perspectives and build meaningful products.

Projects

Story Vine

Story Vine is a writing web app that serves a community of writers to share ideas and write stories. See how far a small idea can grow into stories through other perspectives. Built with Rails, JavaScript, JointJS, Redactor JS, PostgreSQL, Solr, Foundation, Rspec, FactoryGirl, & Circle CI.

Project responsibilities: team lead, secure backend for a complex nested story structure, final decisions on UX/UI, agile team development workflow

Mac Overflow

A Rails applications that mimics Stack Overflow where users can post questions, answers, and comments on anything related to Mac & Cheese! Emphasis on back-end, front-end, TDD, as well as implementing secure polymorphic associations.

Built with: Ruby, FactoryGirl, Rspec, Bootstrap, Rails backend

BookWorms

Read and write reviews for books by other bookworms in your own circle of friends.

Built with Ruby, Rails, Rspec, JavaScript & Bootstrap.
